CASTLES TECHNOLOGY

S2PRO i22 / i16

Introducing the S2 Pro by Castles Technology – an integrated smart POS built to support modern retail and restaurant operations. Combining a powerful Android platform with seamless payment acceptance, this versatile device enables merchants to manage transactions quickly and efficiently.

Powered by a robust system configuration and an intuitive touchscreen interface, the S2 Pro delivers fast and responsive performance for demanding checkout environments. With flexible deployment options, it can be used as a traditional cashier POS or as a compact self-checkout kiosk, adapting easily to merchants' environments.
